Professional Experience

Nepse Alpha Pvt. Ltd. | Full Stack Developer & IT Administrator

Kathmandu, Nepal

Orchestrated the development of comprehensive fintech portals and analytical tools for the Nepal Stock Market, managing the transition to a modern **Vue.js** and **Laravel** microservices architecture.

- ➔ Engineered high-availability database schemas using **PostgreSQL**, achieving significant improvements in data integrity and reporting speed.
- ➔ Directed the implementation of advanced technical analysis algorithms and automated chart pattern recognition, enhancing user decision-making capabilities.
- ➔ Led the integration of complex **TradingView** financial visualization tools, tailoring them for enterprise-level market analysis.
- ➔ Optimized critical database queries and system bottlenecks, resulting in a 40% reduction in server response times for big data operations.
- ➔ Spearheaded the development of a real-time currency scanner using **Go (Golang)** to handle high-concurrency data streams.
- ➔ Guided mobile strategy by delivering a cross-platform application using **React Native**, expanding market reach to mobile users.
- ➔ Architected a real-time currency scanner system using **Go (Golang)** for high-concurrency data processing.

GadgetByte Nepal

Software Project Manager

Jan 2026

- ➔ Enforced rigorous engineering standards by refactoring legacy codebases to align with Swagger/OpenAPI documentation protocols.
- ➔ Strategized server infrastructure scaling and maintenance, ensuring 99.9% uptime for high-traffic media platforms.

The Pond (Lititu Corp.)

August 2025

React/ [Next.js](#) Developer

- ➔ Directed the architecture of SEO-optimized, high-performance web applications using **Next.js** and **TypeScript**.
- ➔ Facilitated seamless API integration between modern frontend frameworks and complex Java-based backend environments.
- ➔ Used Figma design to make the complete working application logic in Next.js.

Workzone1

Sep 2023

Frontend | Electron Developer

- ➔ Developed time tracking software using Electron (Desktop app).

- CMS for time tracking with accounting.
- Experienced in working with GraphQL api.

Global English Campus (GEC)

Dec 2021

Laravel/Vue JS/ React Native Developer

- Managed the development of educational workspace systems, utilizing Agile methodologies and ClickUp for streamlined project delivery.
- Pioneered the use of AI services to automate content creation, increasing operational efficiency for educational modules.
- Use **Vue**, **Vuex**, **Vuexy** (pre-built theme), **Bootstrap Vue**
- Experience working with **Apollo GraphQL**
- Designed and developed a workspace management system
- Develop a mobile-friendly app using **React native**.

Gamenic Nalamiz Tech Pvt. Ltd

April 2020

Laravel & Vue/Nuxt Developer

- Led a distributed international engineering team, fostering a culture of collaboration and high-quality code delivery.
- Utilized all GitHub core features by following agile methodology.
- Oversaw the deployment of real-time communication systems and established AWS-based monitoring and logging practices.
- Involved in analyzing logs in AWS Servers.
- Use Vue, Vuex, Élément UI, Laravel Voyager
- Worked with a Docker environment
- Perform Unit Testing

Mero Network Pvt. Ltd.

April 2018

Php/Laravel/WordPress Developer

Responsibilities:

- Defined technical requirements and architected ERP/CRM solutions for multi-sector travel and inventory management systems.
- Implemented SOAP API (Provided by SABRE) for the Online Flight Booking System.
- Designed scalable REST and SOAP API ecosystems to support multi-platform data synchronization.
- Involved in upgrading Laravel framework versions.
- Creating a database structure as per requirements using MySQL database.
- Implemented various modules like Live Chat system, Document Management system, Project Management System, and many more using Laravel Frameworks, jQuery, VUE-JS, Axios, and Ajax.

Educational Qualification

- **Master of Data Science and Computational Intelligence** at Coventry University (UK)
- **Bachelor of Science in Computer Science & Information Technology (BSc. CSIT)** at Ambition College, Tribhusan University
- **+2 Science** at Southwestern State College, HSEB Board, Nepal
- **S.L.C** at Academy Boarding High School, Nepal Government

Side Projects

Dharkaa.

- Created a lightweight stock market portal integrated with TradingView, built using Laravel, React, and Material UI.

DataBlock

- Create AI Models and a Prompt Manager using Node.js/Adonis

BestPaani

- Created a web application for organizations to post and share their blogs, along with their company details and more.
